WEIGH TO KNOW

TAMTRON ONE POWER STRADDLE CARRIER SCALE

**MEET THE SOLAS REQUIREMENTS AND ENSURE
SAFETY AT SEAS WITH EASY-TO-USE SCALE**

Approved and tested Tamtron One Power Straddle Carrier Scale weighs verified gross mass (VGM) of a container accurately and meets the requirements of the SOLAS regulations. Tamtron One Power Straddle Carrier Scale can be installed in all types of straddle carriers.

- ▶ Accuracy 0.5–2%
- ▶ Weighs containers during the regular port operations
- ▶ Easy to install, retrofit and service
- ▶ Data transmission to TOS and other software
- ▶ Modern Tamtron One display

WEIGHING INFORMATION MANAGEMENT

With Tamtron One Power Straddle Carrier Scale the verified gross mass (VGM) of a container can be combined with the container ID, and the data saved and transferred in an easy and reliable way to ensure safe shipping and smooth, effective operations at seaport. With weighing information the demands for transparency, traceability and ever-growing reporting liabilities can be met.

- ▶ Can be integrated into TOS, ERP and other systems to ensure real-time access to reports and operations monitoring
- ▶ Connectable to the weighing information cloud service, through which the weighing information is accessible in real-time
- ▶ Can be integrated into on-board PC
- ▶ Possible to collect weighing information into the same information management infrastructure from all of the Tamtron scales used at the seaport, e.g. container stacker scales, straddle carrier scales as well as from traditional weighbridges
